Special Learning Center Reveals New Campus Renderings With Informational Media Event

Special Learning Center (SLC) is pleased to invite members of the media to a special reception to unveil the names of our new buildings and share the plans of our new facility dedicated to serving children with developmental disabilities or delays.

The event will take place at 324 East Capital Ave. on Wednesday, March 27 at 4:00 p.m. Members of the media are invited to join us for refreshments and an exclusive presentation highlighting the significant milestones achieved in our capital campaign. During the reception, guests will have the opportunity to hear from campaign co-chairs John Kehoe and Missy McFerron who will provide insights into the impact our new facility will have on the lives of children with special needs and their families. Attendees will also have an exclusive first look at facility renderings and floor plans.

Special Learning Center has been diligently working towards the realization of our new facility, which will provide state-of-the-art resources and support for children with special needs and their families throughout the 11 counties we serve. Through our capital campaign efforts, we have made tremendous progress in securing the necessary funding to bring this vision to life, and we are excited to share insider access to the latest project developments and SLC's vision for the future.

"Over the past three decades, Special Learning Center has been a beacon of hope for thousands of children on Fairgrounds Road," stated Stephanie Johnson, Executive Director. "With our forthcoming state-of-the-art facility, expanded space, and a bolstered team of dedicated professionals, we are poised to extend our impact to even more children. Our mission remains steadfast: to help children with special needs reach their maximum potential."

Special Learning Center provides therapy, care, education, and resources to children with special needs and their families across 11 counties and 23 school districts. For more information about our organization and our capital campaign, please visit www.speciallearningcenter.com.
